SDET Engineer

Job Location
Bangalore & Mumbai, India

Description
We are seeking a skilled **Full stack Automation Engineer** to join our dynamic team. The ideal candidate will have a deep understanding of both frontend and backend development, along with extensive experience in building and maintaining automation frameworks. This role involves working closely with developers, QA engineers, and product managers to ensure the delivery of high-quality, scalable software products.

Responsibilities
Experience: 7 to 10 Years

Location: Bangalore / Mumbai

Interview Process: HE test for 45 Minutes, R1 Technical Interview.**(Final Round is Face to Face Mandatory)**

Key Responsibilities:

- Develop and Maintain Automation Frameworks: Design, build, and optimize automation frameworks that support UI and API testing across various platforms.
- Fullstack Development: Contribute to both frontend and backend development using modern technologies and frameworks.
- Testing and Debugging: Write and maintain test cases, perform thorough testing, and debug issues in both the codebase and the automation framework.
- Continuous Integration and Continuous Deployment (CI/CD): Integrate automated tests into the CI/CD pipeline to ensure seamless and efficient deployment.
- Collaboration: Work closely with cross-functional teams to understand requirements, design comprehensive test plans, and deliver high-quality software.
- Code Reviews: Participate in code reviews to ensure best practices are followed in both development and testing.
- Documentation: Create and maintain detailed documentation for automation frameworks, test cases, and processes.
- Qualifications:
- Educational Background: Bachelor’s degree in Computer Science, Engineering, or a related field, or equivalent practical experience.

Skills

- Proficiency in programming language in Java.
- Experience with frontend frameworks like Angular
- Experience with backend technologies such as Spring Boot.
- Hands-on experience with automation tools such as Selenium, Cypress, or Protractor
