React JS Developer

Job Location
Bangalore, Pune, India

Description
We are looking for a skilled react.js developer to join our front-end development team. In this role, you will be responsible for developing and implementing user interface components using React.js concepts and workflows such as Redux, Flux, and Webpack. You will also be responsible for profiling and improving front-end performance and documenting our front-end codebase.

Responsibilities
Build UIs and APIs using modern tools such as ReactJS, TypeScript, CSS, CSS-in-JS, Redux.
● Deliver high-quality, well-tested code
● Experienced with modern JavaScript coding, testing, debugging and automation techniques
● Enjoy building user-friendly, data-rich JavaScript/HTML/CSS applications
● Excellent analytical, problem-solving, and troubleshooting skills
● Great communication skills

Skills

1. Strong proficiency in JavaScript
2. Thorough understanding of React.js and its core principles
3. Experience with popular React.js workflows
4. Experience with data structure libraries
5. Knowledge of isomorphic React is a plus
6. Familiarity with RESTful APIs
7. Familiarity with modern front-end build pipelines and tools
8. Ability to understand business requirements
9. A knack for benchmarking and optimization
