## VMware Administrator

### Job Location

Bangalore, Karnataka, India

### Description

This role requires a proactive individual who can manage and optimize VMware environments, ensuring high availability and performance of virtualized systems.

### Responsibilities

- **VMware Infrastructure Management:** Install, configure, and manage VMware vSphere environments, including ESXi hosts and vCenter Server.
- **Performance Monitoring:** Monitor and optimize the performance of virtual machines and VMware infrastructure.
- **Troubleshooting:** Diagnose and resolve issues related to VMware environments, including storage, network, and performance problems.
- **Backup and Recovery:** Implement and manage backup and recovery solutions for virtual machines.
- **Security Management:** Ensure the security of the VMware environment by applying patches and updates, and managing access controls.
- **Documentation:** Maintain detailed documentation of the VMware environment, including configurations, procedures, and troubleshooting steps.
- **Collaboration:** Work with other IT teams to integrate VMware solutions with other systems and applications.

### Skills

- Proficiency in VMware vSphere, ESXi, and vCenter.
- Strong understanding of networking, storage, and server hardware.
- Experience with backup and recovery solutions.
- Excellent troubleshooting and problem-solving skills.
- Good communication and teamwork abilities.

### Preferred Skills:

- Experience with other virtualization technologies such as Hyper-V or KVM.
- Knowledge of scripting and automation tools like PowerShell or Python.
- Familiarity with ITIL processes and best practices.

### Hiring organization

Rojgar Group

### Employment Type

Full-time

### Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.

### Base Salary

INR 10,00,000 - INR 15,00,000

### Experience

- Minimum of 3-5 years of experience in VMware administration.
